SUMMARY

Hello, my name is Muhammad Rifqiandi, usually called Andi. I graduated from the Faculty of Information Science and Technology, Department of Informatics, Kalimantan Institute of Technology. I am interested in and focused on full-stack web development, which encompasses both front-end and back-end development.

EXPERIENCE

- Fullstack Developer - PT Mobitech Media Integrasi** **Oct 2025 - Present**
Developed scalable web and mobile enterprise applications using .NET, Blazor, Angular, and Flutter, integrating advanced SQL Server and PostgreSQL optimization through stored procedures and database lock resolution, with full ownership of base module architecture and remote server publishing.
- Fullstack Developer - CV Kolega Eksterior Interior** **May 2025 - Oct 2025**
Developed a web-based venue booking platform for sports and event facilities in Tanah Grogot for a local government agency, using Laravel and Bootstrap, with on-site collaboration and deployment
- Fullstack Developer - Institut Teknologi Kalimantan** **Jan 2025 - Jun 2025**
Developed a fullstack web-based Payroll Management Information System (SIMGAJI) for Kalimantan Institute of Technology using Laravel and Bootstrap, integrating payroll, employee data, tax, BPJS, leave management, and role-based access control into a unified, automated system
- Instructor Coding – SMA Islam Terpadu SMAIT Istiqamah YPAIT** **Aug 2024 - Sep 2025**
Teaching web development to students at the school, focusing on the three key elements of website creation: HTML, CSS, and JavaScript.
- Front End Developer – PT. Media Kreasi Abadi** **Jun 2024 - Nov2024**
Developed an engaging and functional e-learning website that will collaborate with the Sobat UMKM website for digital marketing education. This website is built using React JS.
- Fullstack Developer - Dinas Lingkungan Hidup Kabupaten Bulungan** **Sep 2023 - Feb 2024**
Developed a waste transportation website in collaboration with the Bulungan Regency Environmental Agency, using JavaScript and PHP.

EDUCATION

- S1 Informatika - Institut Teknologi Kalimantan** **Jul 2021 - Jun 2025**
SMA Negeri 1 Tanjung Selor - MIPA **Jul 2018 - Mei 2021**

INFORMASI TAMBAHAN

- **Keahlian Teknis:** Laravel, .NET, Blazor, Flutter, Sql Server, PostgreSQL, Stored Procedures.
